

# ESSENTIAL FLORA EXTRACT™

Amino Acid Supplement

## The Proper Balance of Amino Acids.

Essential Flora Extract is a highly soluble and concentrated ( $\frac{1}{4}$  mL per gallon) natural additive. As with all Flying Skull products, great care has been taken to make sure that the chemistry behind Essential Flora Extract will work without causing any adverse chemical reaction with any other Flying Skull product. Essential Flora Extract is formulated to work with Flying Skull's basic three part plant food. It is used from the time of clone to harvest.

Most growers have experienced what happens when organic particulate clog the root's delicate permeable membrane; pH starts to fluctuate, roots discolor, root rot takes the life of the plant and harvest is non-existent. Essential Flora Extract can deliver the proper balance of amino acids to the plant without clogging the root's membrane like most other natural additives.

Essential Flora Extract has been successfully used in all hydroponic systems, including Deep Water Culture, without a negative impact to the plant's delicate root system. Essential Flora Extract is an important part of the Elite plant food line. It should always be used.

Size	Product Code	UPC	Product Dimensions	Product Weight	Quantity Per Case	MSRP
4 oz	FS110	711320501503	2" x 2" x 5"	1 lb	12	\$ 12.95
8 oz	FS111	711320501558	2" x 2" x 7"	2 lbs	12	\$ 21.95
1 Quart	FS112	711320501602	4" x 4" x 10"	3 lbs	6	\$ 75.95
1 Gallon	FS113	711320501657	7" x 7" x 12"	11 lbs	2	\$ 249.95
